5. Explanation of footnotes and comments

Footnotes

- (1) Refer to the following pages for approved commercial products.
- (2) Normal operation: mixed on-highway and off-road operation.
- (3) Heavy-duty application: primarily off-road operation (high levels of driving resistance, high loads, low speed) and special applications (such as heavy goods vehicle, mobile cranes, fire trucks, etc.).
- (4) Oil change required, depending on what occurs first.
- (5) If the permissible permanent maximum oil sump temperature is exceeded, additional cooling is required.

Comments

Additives of any kind added **later** to the oil change the oil in a manner that is unpredictable, and they are therefore not permitted. No liability of any kind will be accepted by ZF for any damage resulting from the use of such additives.
